

Plan 4

The spaciousness, grace, and appreciation for detail in this 4 bedroom home signal a return to earlier, more expansive times. There is a striking balance between formality and family warmth, perhaps best illustrated in the master suite: this retreat — with its fireplace, separate library and private sitting area — is a virtual celebration of sensitive design.

2 Story • 4 Bedrooms • 2½ Baths • Fireplace in Living Room, Family Room and Private Sitting Area off Master Suite • Wet Bar • 2,944 Square Feet.
